Judge Claims He Was
Owed To Furnish Record
of Hepp Case.

When the mandamus was
granted in the Hepp case,
the judge said that the
court was not to be
bothered with the
mandamus suit.

Hepp declares that Judge
Gast failed to furnish the
record of the Hepp case
to the mandamus court.

administrative of her brother's estate.
In his answer Judge Gast states
that he was prepared at all times to
furnish Miss Hepp with a complete
record of the hearing in her case
against Patton. The answer also
states that she made no request for
a transcript of the case, or the
transcript of the case last June Judge
Gast ruled in favor of Patton.

Judge Gast claims that he is not
responsible for filing appeal cases in
the higher court. Miss Hepp brought
the mandamus action against Judge
Gast in an effort to reopen the case
after the date for filing an appeal
had expired.

No date for hearing the mandamus
action has been set by the common
pleas court.

James R. Shipley Speaks at Meeting
of Journalism Students.

James R. Shipley, artist in the ad-
vertising department of the Jay H.
March Co., addressed the Harding
High school press club on "The Value
of Advertising" yesterday at a
monthly meeting. The press club is
made up of the journalism students
at the high school.

"Without advertising, the public
would not know the value of the
products sold," he said, and added
that it is the illustration that goes
with the advertisement that attracts
the attention of the reader. His talk
was illustrated with advertisements
that have been originated with the
company for which he works, and
showed the manner in which a
"snappy" ad is worked up, from the
time at which the idea originates.

Shipley was introduced to the club
members by Haver Alsop, presi-
dent.

TARDINESS RECORD SHOWS IMPROVEMENT

Number of Public School Pu-
pils with Perfect Attend-
ance Also Higher.

Tardiness of the public schools de-
creased this month over last month
as well as the corresponding period
last year. The latest report is for
the month ending March 14. There
were 183 cases for the month re-
ported, 56 less than for last month,
and 81 cases under the corresponding
period in 1929.

Together with the decrease in
tardiness there is also an increase in
pupils perfect in attendance. There
were 3,327 pupils in the monthly en-
rollment of 6,229, who were perfect
in attendance. This figure is 31 pupils
more than last month and 121 more
than the same month in 1929.

There was a pick-up shown in the
number of fire drills also. Seventeen
were held in the month ending March
14, over six in the preceding month
and nine in 1929.

The per cent of attendance in the
individual schools in the system was
as follows:

Pearl, 96.5; Greenwood, 96.2; Cen-
tral, 95.1; Vernon, 95.1; Forest
Lawn, 95.0; Oak, 94.8; Oliver, 94.7;
Davids, 94.2; State, 93.7; Glenwood,
93.1; Oakland, 91.8; Lincoln, 91.7;
Silver, 91.0; Harding, 90.5; Mark,
90.3; North Main, 87.5.

Main St on List

Main street plans call for resurfacing of the pavement from Columbia street to George street and creation of a boulevard on the southern end of the section to be improved. This will make the street of uniform width from Columbia to George street.

It is assumed that the C D & M Electric Co will lay conduits for white way street lights while the job is in progress and that the improved section will be lighted in season.

Bricks along the curb line will be taken out to permit a proper depth. Storm water sewers will probably come in for attention when these bricks are removed. City Engineer J. S. Cathers told councilmen last night.

Existing catch basins will be replaced and the number of them will be approximately doubled he said. Silver at which has virtually been

a bone of contention since the first of the year when plans to resurface the street were set under way was all acted upon

May Delay Work

Since protests from an alleged majority of the property owners along the street have been filed asking th

the resurfacing be delayed for at least a year it is not certain that the project will be pushed through to completion this year.

However the legislation is virtually complete and work on it started when property owners will bear approximately half the cost.

Bebe Daniels tells you how to be CAPTIVATING

"HOW to be captivating?" Bebe Daniels
 smiled a deprecating little smile as she considered my question. But when she began to speak her appealingly beautiful brown eyes were thoughtful.

And then I learned this lovely actress feels emphatically there's one thing has more to do with a girl's attractiveness than any other charm—a beautiful skin—clear, soft, smooth.

How alluring in any girl! How sure to win admiration! And to the screen star, Bebe Daniels earnestly explained, a skin of breath-taking loveliness is really essential!

"Only the girl with smooth skin," she said, "need not fear the relentless eye of the camera. For even the cleverest make-up will not suffice under the searching lens of the close-up."

"That is why," she went on seriously, "many girls lacking great beauty but possessing lovely skin have passed on the road to fame the woman with perfect features."

"Lux Toilet Soap is wonderful for keeping the skin smooth and lovely."

BEBE DANIELS, fascinating Radio Pictures' star, in the luxurious blue and silvery grey bathroom which is one of the most beautiful seen in Hollywood.

"Many girls lacking great beauty but possessing lovely skin, have passed on the road to fame the woman with perfect features. Lux Toilet Soap is wonderful for keeping the skin smooth and lovely!"

JOHN CLYDE, whose skin shows up finest in the close-up, is enthusiastic about Lux Toilet Soap. He says: "It's a real find!"

ANNA Q. NIMMON, Radio Pictures' star, says: "Lux Toilet Soap is really like velvet."

BETTY COMPTON, Radio Pictures' star, says: "I'm delighted with this fragrant white soap. It keeps my skin so superbly smooth."

Taxpayers Prefer Concrete Roads Why?

Four Outstanding Reasons:

SAFETY: The average priced modern car can be driven at fifty miles an hour. Safety at such speed demands well built, evenly finished concrete pavement to reduce the possibility of skidding, and to permit the driver to concentrate on driving.

COMFORT: Concrete pavements may be finished to provide a perfection of riding quality which has never been attained in any other type of highway. A concrete pavement retains this perfection of surface indefinitely, regardless of summer heat or winter cold.

CAPACITY: When any highway is improved it attracts traffic to an extent often unforeseen. Concrete highways have the greatest traffic capacity because reasonable speeds can be maintained with safety, the flat crown does away with the tendency toward center of the road driving, and the full width of the pavement can be utilized.

LOWEST TOTAL COSTS: Maintenance records of Ohio—and of many other states—show that upkeep costs of concrete roads are consistently the lowest of all pavements. Vehicle operating cost plus the annual cost of the highway (for upkeep and depreciation) is less for concrete than for any other type of improved surface, where the daily traffic totals 250 vehicles or more.

THESE characteristics of concrete roads have been demonstrated by years of practical experience and by the searching investigations of nationally known authorities. Well built concrete roads invariably satisfy the most critical taxpayers and enhance the standing of the public officials who construct them.
